Dean's Research Fund Presentation

PROFESSOR CHOU KEE LEE

Chair Professor

Presentation Topic:

What is my secret sauce for soliciting research fund ?

Abstract:

I will share my thoughts on how to solicit research funding using two examples. One is related to the Research Output Prize of the Dean's Research Fund for a paper entitled 'Preferences for Private Long-Term Care Insurance Products in a Super-Ageing Society: A Discrete Choice Experiment in Hong Kong,' and the other is the Dean's Research Fund project entitled 'Teachers Need Feedback: A Study of Classroom Analytics.' Furthermore, I will also illustrate my approach with two lines of investigation among older adults and dementia caregivers. The first focuses on interventions that reduce loneliness among older adults, while the second addresses how to mitigate the negative consequences of dementia caregiving.

DR NG FUNG SHEUNG ISABELLA

Assistant Professor

Presentation Topic:

Save the Children: A comparative study examining the legal and policy protection on asylum-seeking and refugee children in Hong Kong and U.K.

Abstract:

This research investigates the legal and policy framework for protecting asylum-seeking and refugee children in Hong Kong and the United Kingdom, as well as the role of international human rights mechanisms in facilitating their protection. Preliminary research and expert interviews have revealed distinctive government policies in both regions. While Hong Kong, as a former British colony, has inherited key aspects of child protection and policy related to asylum-seeking children within the framework of international human rights mechanisms, there are stark differences between the two in terms of 1) local policies concerning asylum-seeking and refugee children; 2) their commitment to international human rights mechanisms.
